

Table of Contents

PART ONE: Laser Biophysics, Systems, and Safety	1
Chapter 1, Laser Biophysics	1
1.1 History of Laser Technology in Health Care	1
1.2 Principles of Light	3
1.2.1 Wavelength	3
1.2.2 Velocity and Frequency	5
1.3 Basic Atomic Physics	5
1.4 Laser Light Characteristics	6
1.4.1 Monochromatic	6
1.4.2 Collimated.....	6
1.4.3 Coherent.....	7
1.5 Laser Power	8
1.5.1 Power Density.....	8
1.5.2 Fluence.....	9
1.6 Laser-Tissue Interaction	10
1.6.1 Reflection.....	10
1.6.2 Scattering	11
1.6.3 Transmission	11
1.6.4 Absorption.....	11
1.7 Laser vs. Electrosurgery	14
1.7.1 Principles of Electrosurgery.....	15
1.7.2 Electrosurgical Units.....	18
1.7.3 Electrosurgery Use during Laparoscopy	19
1.7.4 Argon-Enhanced Electrosurgery	23
1.8 Laser Benefits	23
Chapter 2, Laser Systems	25
2.1 Laser Wavelengths and Colors	25
2.2 Laser System Components.....	26
2.2.1 Excitation Source	27
2.2.2 Laser Head	27
2.2.3 Ancillary Components	28
2.2.4 Control Panel	28
2.2.5 Delivery System.....	29
2.3 Carbon Dioxide Laser.....	29
2.3.1 CO ₂ Laser Characteristics	29
2.3.2 CO ₂ Laser Types	30
2.3.3 CO ₂ Laser Delivery Systems.....	31
2.3.4 CO ₂ Laser Operational Modalities	35
2.4 Erbium:YAG Laser.....	36
2.5 Holmium:YAG Laser	37
2.6 Thulium:YAG Laser	37
2.7 Neodymium:YAG Laser.....	37
2.8 Alexandrite Laser.....	40
2.9 Q-Switched Ruby Laser.....	40
2.10 Semiconductor Diode Laser.....	41
2.11 Tunable Dye Laser.....	42
2.12 Krypton Laser	42
2.13 Frequency-doubled YAG (KTP) Laser.....	42
2.14 Copper Vapor Laser.....	43

2.15	Argon Laser	44
2.16	Excimer Laser	45
2.17	Free Electron Laser	45
2.18	Noncontact Fiber Delivery System	46
2.19	Intense Pulsed Light.....	49
Chapter 3, Laser Safety		51
3.1	Laser Safety References and Regulatory Bodies	51
3.1.1	American National Standards Institute (ANSI) and Accredited Standards Committee (ASC) Z136.....	51
3.1.2	International Electrotechnical Commission (IEC)	51
3.1.3	International Standard Organization (ISO)	51
3.1.4	FDA (www.fda.gov) and Center for Devices and Radiological Health (CDRH)	51
3.1.5	Occupational Safety and Health Administration (OSHA)	52
3.1.6	National Institute for Occupational Safety and Health (NIOSH).....	52
3.1.7	The Joint Commission (formerly known as the Joint Commission on Accreditation of Healthcare Organizations - JCAHO).....	53
3.1.8	Association of periOperative Registered Nurses (AORN).....	53
3.1.9	American Society for Laser Medicine and Surgery (ASLMS)	53
3.1.10	Laser Institute of America (LIA).....	53
3.1.11	State and Local Regulations	54
3.1.12	Hospital Policies and Procedures	54
3.1.13	Hierarchy of Power and Control Measures	54
3.2	Laser Hazard Classifications.....	54
3.2.1	Class 1 Lasers.....	55
3.2.2	Class 2 Lasers.....	55
3.2.3	Class 3 Lasers.....	55
3.2.4	Class 4 Lasers.....	55
3.3	Laser Committee.....	56
3.4	Laser Safety Officer and Laser Team Members	57
3.5	Controlled Treatment Area	59
3.5.1	Nominal Hazard Zone and Maximum Permissible Exposure	59
3.5.2	Laser signs.....	61
3.5.3	Window Coverage and Door Interlocks	62
3.6	Protection from Unintentional Laser Beam Exposure	63
3.6.1	Laser Key	63
3.6.2	Laser Foot Pedals	63
3.6.3	Emergency Shut-Off	65
3.6.4	Laser Beam Reflection	65
3.6.5	Laser Backstops	67
3.6.6	Laser Mirrors.....	67
3.6.7	Endoscope Precautions.....	67
3.6.8	Fiber Precautions.....	69
3.7	Eye Safety	69
3.7.1	Eye Hazards	69
3.7.2	Eye Protection	70
3.7.3	Patient Eye Protection	74
3.7.4	Baseline Eye Examination	75
3.8	Fire Safety.....	78
3.8.1	Fire Extinguishers	78
3.8.2	Flammables and Combustibles.....	80
3.8.3	Methane Gas Explosion	81
3.8.4	Airway Explosion.....	81
3.9	Laser Surgical Plume	84
3.9.1	Laser Plume Research	85
3.9.2	Smoke Evacuation Methods.....	88

3.9.3	Masks	96
3.9.4	Compliance with Smoke Evacuation	98
3.10	Other Safety Measures	100
3.10.1	Electrical Hazards	100
3.10.2	Transportation Hazards	100
3.11	Laser Safety Policies.....	100

PART TWO: Clinical Laser Applications..... 105

Chapter 4, Ophthalmological Laser Applications.....105

4.1	Lasers in Ophthalmology	105
4.2	Anatomy	106
4.2.1	Retina	106
4.2.2	Uvea	107
4.2.3	Sclera	107
4.3	Laser Procedures of the Retina	107
4.3.1	Diabetic Retinopathy and Retinal Vascular Problems	107
4.3.2	Laser Treatment for Retinal Conditions	108
4.3.3	Laser Repair of Retinal Tears and Detachments	112
4.4	Laser Procedures for Glaucoma.....	112
4.4.1	Open-Angle Glaucoma	113
4.4.2	Closed-Angle Glaucoma	114
4.4.3	Other Laser Treatment Techniques for Glaucoma	115
4.5	Posterior Capsulotomy.....	116
4.6	Photorefractive Surgical Procedures.....	118
4.7	Other Ophthalmologic Laser Applications	126
4.7.1	Laser Photocoagulation for Trichiasis.....	126
4.7.2	Cataract Extraction.....	126
4.7.3	Photodynamic Therapy to Treat Macular Degeneration	127
4.7.4	Oculoplastics and Other Ophthalmological Procedures.....	127

Chapter 5, Ear, Nose, and Throat and Related Laser Applications130

5.1	Laser Procedures for the Ear.....	130
5.1.1	Laser Stapedectomy	130
5.1.2	Other Otological Laser Applications.....	132
5.2	Laser Procedures for the Nose and Sinus.....	132
5.2.1	Laser Surgery for Sinus Conditions	132
5.2.2	Laser Surgery for Allergic Rhinitis	133
5.2.3	Laser Turbinectomy	134
5.2.4	Laser Treatment of Nasolacrimal Duct Surgery.....	134
5.2.5	Laser Treatment for Other Nasal Conditions	135
5.3	Laser Microlaryngoscopy	135
5.3.1	Indications for Laser Microlaryngoscopy	135
5.3.2	Anesthesia Concerns and Safety Precautions.....	136
5.3.3	Laser Microlaryngoscopy	144
5.4	Laser Bronchoscopy	145
5.4.1	Laser Systems	145
5.4.2	Bronchoscope Systems	145
5.4.3	Safety during Laser Bronchoscopy	146
5.4.4	Laser Bronchoscopy Protocol	146
5.4.5	Complications Associated with Laser Bronchoscopy	147
5.5	Laser Tonsillectomy	147
5.6	Laser Procedure of the Temporomandibular Joint.....	148
5.7	Laser Treatment for Snoring.....	148
5.8	Laser Procedures in the Oral Cavity	149
5.9	Soft Tissue Laser Procedures.....	150

5.10	Laser Applications in Dentistry	151
Chapter 6, Dermatology and Plastic Surgery Laser Applications		154
6.1	Laser Technology in Dermatology and Plastic Surgery	154
6.1.1	Laser Wavelengths	154
6.1.2	Laser Cooling Systems	156
6.1.3	Lotions, Creams, and Dressings for Laser Surgery	158
6.2	Laser Surgery for Vascular Lesions	159
6.2.1	Port-Wine Stain	159
6.2.2	Post-Acne Redness	164
6.2.3	Pigmented Lesions	164
6.2.4	Telangiectasias (Spider Veins)	165
6.2.5	Large Leg Veins	169
6.3	Laser Surgery for Cutaneous Procedures	170
6.3.1	Skin Incisions	170
6.3.2	Keloids and Scars	170
6.3.3	Facial Resurfacing	171
6.3.4	Rhinophyma	177
6.3.5	Burn Therapy	178
6.3.6	Verruca	178
6.3.7	Actinic Cheilitis	179
6.3.8	Other Laser Applications	179
6.4	Laser Surgery for Hair Removal	179
6.5	Laser Surgery for Tattoo Removal	181
6.6	Laser Plastic Repair Procedures	187
6.6.1	Laser Blepharoplasty	187
6.6.2	Laser Repair of Pierced Ear	188
6.7	Photography for Laser Dermatology Procedures	188
6.8	Nurses Involvement with Dermatology Laser Procedures	189
Chapter 7, Gastroenterology and Colorectal Laser Applications		192
7.1	Laser Endoscopy	192
7.1.1	Endoscopy Protocol	192
7.1.2	Laser Treatment for Esophageal Obstruction	194
7.1.3	Photocoagulation of GI Bleeding Lesions	196
7.1.4	Laser Treatment for Malformations in the GI Tract	197
7.1.5	Laser Colonoscopy	198
7.2	Laser Surgery for Rectal and Perianal Conditions	199
7.2.1	Laser Hemorrhoidectomy	199
7.2.2	Fissures	201
7.2.3	Fistulas and Abscesses	201
7.2.4	Pilonidal Cysts and Sinuses	201
Chapter 8, Gynecology Laser Applications		203
8.1	Lower Tract Laser Applications	204
8.1.1	Cervical Conditions	204
8.1.2	Vaginal Conditions	206
8.1.3	Vulvar Conditions	206
8.1.4	Condyloma Acuminata Vaporization	207
8.2	Laparoscopic Laser Applications	207
8.2.1	Endometriosis Vaporization	210
8.2.2	Neosalpingostomy	212
8.2.3	Uterosacral and Presacral Transection	212
8.2.4	Ovarian Procedures	213
8.2.5	Laser Treatment of Ectopic Pregnancy, Fibroids, and Adhesions	213
8.3	Hysteroscopic Laser Applications	214

8.3.1	Endometrial Ablation for Menorrhagia.....	214
8.4	Intraabdominal Laser Applications for Infertility	217
8.4.1	Adhesiolysis	217
8.4.2	Salpingoplasty, Reanastomosis, and Tubal Reimplantation.....	218
8.4.3	Myomectomy and Endometriosis Vaporization.....	219
Chapter 9, Urology Laser Applications		222
9.1	Endoscopic Laser Applications.....	222
9.1.1	Bladder Tumors	222
9.1.2	Urethral Strictures	225
9.1.3	Ureteral Calculi.....	226
9.1.4	Benign Prostatic Hypertrophy.....	227
9.1.5	Chronic Cystitis	231
9.2	External and Open Laser Procedures	231
9.2.1	Condylomata Acuminata.....	231
9.2.2	Circumcision	233
9.2.3	Penile Carcinoma	233
9.2.4	Vasectomy Reversal.....	234
9.2.5	Partial Nephrectomy	234
Chapter 10, General Surgery and Oncology Laser Applications		236
10.1	Laser Procedures of the Breast	237
10.1.1	Breast Biopsy and Treatment of Breast Abscess.....	237
10.1.2	Mastectomy.....	238
10.2	Laser Procedures of the Neck	239
10.2.1	Radical Neck Dissection	240
10.2.2	Laser Thyroidectomy	240
10.3	Laser Procedures of the Chest	241
10.3.1	Thoracoscopy to Treat Bullous Emphysema.....	241
10.3.2	Laser Bronchoscopy.....	242
10.4	Laser Procedures Involving Abdominal Organs	242
10.4.1	Liver.....	243
10.4.2	Pancreas	243
10.4.3	Spleen.....	243
10.4.4	Intraabdominal Procedures.....	244
10.4.5	Hernia.....	244
10.4.6	Gallbladder.....	244
10.4.7	Biliary Stones.....	246
10.5	Photodynamic Therapy	246
Chapter 11, Cardiovascular Laser Applications.....		253
11.1	Laser Angioplasty.....	253
11.1.1	Atherosclerosis.....	253
11.1.2	History of Laser Angioplasty	253
11.1.3	Diagnostic Testing – Arterial Assessment	254
11.1.4	Patient Selection Criteria for Laser Angioplasty.....	254
11.1.5	NonLaser Surgical Alternatives	254
11.1.6	Laser Angioplasty	255
11.2	Transmyocardial Revascularization.....	259
11.3	Laser Thrombolysis	263
11.4	Vascular Welding and Intravascular Sealing	263
11.5	Future Cardiovascular Laser Applications.....	264
Chapter 12, Podiatry, Orthopedic, and Neurosurgery Laser Applications		267
12.1	Podiatric Laser Applications.....	267
12.1.1	Excision of Verrucae Plantaris.....	267

12.1.2	Callus, Cyst, Corn, and Fissure Treatments	269
12.1.3	Nail Procedures	270
12.1.4	Neuroma, Cyst, and Other Soft-Tissue Excisions	272
12.2	Orthopedic Laser Applications	274
12.2.1	Arthroscopic Procedures	275
12.2.2	Laser Discectomy	276
12.2.3	Laser Use for Soft Tissues	278
12.2.4	Vaporization of Polymethylmethacrylate	278
12.2.5	Laser Biostimulation	279
12.3	Neurosurgical Laser Applications	280
12.3.1	Laser Procedures of the Brain	280
12.3.2	Laser Procedures of the Spinal Cord	282
12.3.3	Stereotactic Endoscopic Laser Surgery of the Brain	282
	Chapter 13, Laser Technology and Animals.....	284
13.1	Animal Use in Laser Research	284
13.1.1	Animal Research Protocols	285
13.2	Laser Applications in Veterinary Medicine	290
13.2.1	Laser Surgery on Dogs	291
13.2.2	Laser Surgery on an Elephant	292
13.2.3	Laser Surgery on Horses	292
13.2.4	Laser Surgery on a Dolphin	293
	PART THREE: Administrative Aspects of Laser Services.....	299
	Chapter 14, Forming the Infrastructure of a Laser Program.....	299
14.1	Laser Committee	299
14.1.1	Structure	299
14.1.2	Responsibilities	300
14.2	Business Case and Business Plan Development	302
14.2.1	Business Case Development	302
14.2.2	Business Plan Development	303
14.3	Physician Credentialing	305
14.4	Staffing: The Laser Team	308
14.5	Ethics	315
14.6	Expanding Laser Services	317
	Chapter 15, Finances of a Laser Program	322
15.1	Procurement of Laser Systems	322
15.1.1	Assessment (Justification)	322
15.1.2	Planning Process (Comparing Laser Systems)	322
15.1.3	Implementation (Acquisition of the Laser System)	324
15.1.4	Evaluation	327
15.2	Laser Rentals	327
15.3	Laser Economics	328
15.3.1	Costs	328
15.3.2	Charges	329
15.3.3	Reimbursement	329
15.3.4	Cost Containment	331
15.4	Maintaining Adequate Laser Utilization	333
	Chapter 16, Legal Aspects of Laser Surgery	336
16.1	Laser Program Administration	336
16.1.1	Standards of Care	336
16.1.2	Documentation	337
16.1.3	Environmental Controls	339

16.1.4 Physician Credentialing	339
16.1.5 Total Quality Management	339
16.2 Patient Consent and Education	340
16.2.1 Patient Consent	340
16.2.2 Patient Education	341
16.3 Physician Liability	341
Chapter 17, Marketing a Laser Program	344
17.1 Developing a Marketing Plan	344
17.1.1 External and Internal Assessment	345
17.1.2 Establishing the Focus of the Marketing Plan	346
17.2 Implementing a Marketing Plan	346
17.2.1 Advertising.....	347
17.2.2 Personal Selling	350
17.2.3 Sales Promotion	351
17.2.4 Publicity	352
17.3 Evaluating a Marketing Plan.....	353
Chapter 18, Laser Education	356
18.1 Perioperative Patient Education	356
18.1.1 Initiating Laser Education	356
18.1.2 Assessment.....	357
18.1.3 Planning	358
18.1.4 Implementation	359
18.1.5 Evaluation	360
18.2 Community Education	365
18.2.1 Computerized Presentations.....	365
18.2.2 Booth Display	366
18.2.3 Informational Brochures	366
18.3 Health Care Professional Education	366
18.3.1 Performance Appraisals	366
18.3.2 Laser Conference	368
18.3.3 Preceptorships	373
Glossary	377
List of Figures.....	381
List of Tables	391
List of Boxes	393
Index.....	395
